The Brand

TH Clothes was born in 2006 with the creation of its logo and the first products, the Delta sweatshirt. The brand appears on the market in order to address the need to provide certified quality products at a fair price.

From 2010 to 2015, the brand has grown exponentially in the Portuguese market and has designed 16 new products. 2015 was also the year of internationalization of the brand that already has sales to 12 countries in Europe.

2016 was a big year for TH Clothes. The brand presented 37 new products, seeking to satisfy their customers' needs at all levels.

Because it needed to consolidate and expand, TH Clothes bet in 2017 on strengthening its permanent stock, doubling it, with approximately 6 million articles ready to ship in 24 hours for the national market and in 2 to 5 days for the European market, with sales to 27 countries. It presented 2 new articles relevant to market niches that considered to be essential.

The brand also continued its focus on digital marketing tools, integrated new solutions that feature usability and relevance to the business of our customers.

TH Clothes has continued to play a strong role in social responsibility by maintaining its partnership with AML by donating part

of the sales of the entire Ankara range. It continued to integrate the ColorAdd language, a system that allows colour-blind people to identify colours.

The Future

In 2018, TH Clothes takes a stance of solidity and confidence. It reinforces its permanent stock, intensifies its range of colours in a sustained way and introduces 5 new articles that it considers essential in the promotional markets.

It also strengthens its role in social responsibility by establishing a new partnership with the HOPE Foundation for

Women and Children of Bangladesh with the aim of building a new medical centre that will provide general / primary health, maternal health, child care and is to be the reference centre for the following specialized care at HOPE Hospital: obstetric fistula repair, lip / palate cleft repair, reconstructive burns surgery and will also serve as an outpost for research programs. It has also become a member of the Fair Wear Foundation, a certification confirming its collaboration with the manufacturers for a constant improvement in working conditions.

We were born as a medical act and we are very proud of it, but after reflecting on what we are today, the AMI acronym has gained a new meaning. More than what we do, what makes us different is how we do it. Something that in practice is translated this way:

AMI acts: Acting quickly and effectively is critical in any emergency situation.

AMI is prepared to act in situations as different as an earthquake in Asia, home support for the elderly in Portugal or food aid to dining rooms, etc.

AMI changes: Improving skills, personal development and behaviour change are essential to the individual and society progress.

AMI supports environmental projects, literacy, employment, vocational training, among others.

AMI integrates: Because it believes that there is only hope when there is a future, AMI supports projects that offer tools to allow the complete autonomy of individuals or populations: microcredit, shelters, family gardens, social businesses, etc.

Basically, AMI is always on a mission. This new position has led to the creation of a signature and an image that reflects the essence of the AMI of today and which has involved all of its employees, as the new logo includes an “M” (for Mission) designed by each of the elements of AMI, since each one has a mission and plays a fundamental role in its history.

In 2016/2017, the contributions reverted especially for the project “Um sonho das galinhas - Construction of a Primary School in Ametite”, which involved the construction of a school that would house 175 children in Bolama Bijagos, Guinea Bissau. In 2018, TH Clothes and AMI continue their arduous mission to help those who need it most.

TH CLOTHES & HOPE FOUNDATION FOR WOMEN & CHILDREN OF BANGLADESH

TH Clothes is excited to announce its partnership with HOPE Foundation for Women and Children of Bangladesh, a non-profit organization dedicated to improving the health of impoverished women and children in the rural regions of Bangladesh. HOPE runs a 40-bed charitable hospital, 8 rural medical centres and a training centre to provide critical care to the women and children in Cox's Bazar, a rural seaside village in the southeast of the country. HOPE's infrastructure and network enable it to serve over 30,000 people a year. In addition to primary care, emergency care, immunizations and laboratory services, HOPE's main programs are:

- Maternal Health – Antenatal and postnatal care, emergency obstetric care, natural delivery, family planning, nutrition counselling and maternal immunizations.
- Children's Health – School health screenings, primary and emergency care, immunization program and nutrition counselling.
- Obstetric Fistula – Prevention, Obstetric fistula repair, physical therapy, reintegration and outreach.
- Cleft Lip/Palate – Outreach, surgical repair, speech therapy, and feeding therapy.
- Burn – Outreach and Education, Prevention, surgical repair and rehabilitation.
- Midwifery Training
- Community Health Worker Training
- Maternal Health Research

Bangladesh Health Facts:

- Over 90% of women give birth at home in Cox's Bazar, at the hands of untrained birth attendants. This results in a high maternal mortality rate of 194 per 100,000 births and a high neonatal mortality rate of 24 per 1,000 new-borns.
- 72% of child-bearing women live in rural areas where healthcare access is limited or non-existent.
- Investing in midwives in Bangladesh yields a 16.2 return.
- Out of Bangladesh's children of pre-school age over 54% have stunted growth, 56% are underweight and over 17% are wasted.
- Leading causes of death in children are Pneumonia and Diarrhea, both of which are preventable with proper medical attention.
- In Bangladesh there are 71,000 women in need of obstetric fistula repair and 2,000 new cases per year.
- 50% of expectant mothers

- Bangladesh is a country where 40 percent of its inhabitants live below the poverty line, the age of marriage is 15 years and age at first childbirth is 18.7 years
- The estimated lifetime risk of dying from pregnancy and childbirth related causes in Bangladesh is 1 in 21, compared to 1 in over 4,000 in industrialized countries.
- Each year 5,000 children are born with cleft lip/palate in Bangladesh; the cause is pregnant mothers not getting antenatal care and taking folic acid.
- More children in South Asia die from severe burns than from HIV/AIDS, malaria and respiratory disease.

TH Clothes will support a new HOPE Medical centre! The centre will boast a doctor and a midwife to offer comprehensive care to the community. The centre will provide the following services: general/primary health, maternal health (antenatal care, maternal immunizations, family planning, birth preparedness, new-born care, neonatal care, postnatal care), children's care, nutrition counselling, hygiene education, public health, minor surgical care i.e. lacerations, etc., and lab collection facilities.

The centre will further act as a referral centre for the following specialized care at HOPE Hospital: obstetric fistula repair, cleft lip/palate repair, burn reconstructive surgery, and also serve as an outpost for our research programs. The centre will host rural medical camps during visits by international physicians where typically 2-300 patients are seen in one day.

PORTUGUESE DNA

TH Clothes has been building a path full of successes and its recognition in the European markets is already a reality. Like our ancestors, we are committed to conquering the world, leveraged by our perseverance, resilience and conviction that what we are building is something that fully reflects the Portuguese DNA, once a people full of determination and unshakeable beliefs, likewise the “Descobrimentos” era. TH Clothes is growing to be one of the references in promotional markets and it was precisely these values that cemented its range of articles and the global set of tools that we made available to our customers. The growth in both domestic and international markets reflects this and reveals that the focus on quality, elegance, detail and differentiation has been and will continue to be right.

IMAGINED & DESIGNED IN PORTUGAL

The Portuguese DNA is well recognized in the world of textiles. Its success story dates back to the sixteenth century with construction of the sails used by Portuguese ships. Since that time, the quality of construction and the design of Portuguese brands is appreciated all over the world. Today, the Portuguese textiles mean flexibility, speed, consolidated knowledge and innovation. Based on these assumptions, TH Clothes continues the strong focus on product quality and extending its ranges towards a future marked by differentiation and added value at various levels. In 2018, the brand again shows clear signs that its bet on items of exemplary elegance and quality is to maintain, introducing references such as the Monaco polo shirt and the San Marino t-shirt.

THC SUB

unisex sublimation t-shirt
pages 18 & 19

In 2018, TH Clothes becomes a member of the FAIR WEAR Foundation. This commitment means respecting its code of labour practices based on 8 internationally recognized standards: free choice of work, non-discrimination in employment, child labour, freedom of association and collective bargaining, fair wages, reasonable working hours, hygiene and safety at work and legally recognized contractual relations of employment.

Tested for harmful substances.
www.oeko-tex.com/standard100

TH Clothes have always assumed a commitment to quality and innovative design combined with the best price. The proof of that is getting the OEKO TEX Standard 100 certificate which aims to the excellence in the use of controlled substances free of health hazards, as well as non-use of substances prohibited by law.

Obtaining this certificate is a worldwide synonym for responsible textile manufacturing and a guarantee for the industry, trade and consumers.

THE COLOR BLINDNESS

It is a limitation that affects 10% of men world's population - approximately 350 million people worldwide. This limitation, hereditary condition, is transmitted through the X chromosome and creates its colour-blind bearer major constraints in terms of social and professional integration.

90.0% asks for help in the purchase of clothing;
87.7% have difficulty in choosing / using clothing;
64.3% believe the confusion of colours as the biggest problem;
73.2% have felt embarrassed;
41.5% have difficulty at the level of social integration.

SYMBOLS THAT INCLUDE COLOUR

Developed based on the three primary colours represented by graphic symbols, the ColorADD code is based on the concept of "adding colour", allowing the colour-blind to relate the symbols and easily identify the whole palette.

White and black come to guide light and dark shades. The code becomes a "mental game" easy to remember and easy to apply in the day by day!

TH CLOTHES & COLORADD

The adoption of the ColorADD code has to do with the TH Clothes social concern. We believe that with this new tool we help to greatly improve the day by day life of millions of people. We see the code as an innovative and effective tool that provides a more inclusive character, allowing about 350 million people a better interpretation of our colours. With this step, we broke another barrier and allow everyone a correct interpretation of 90% of the information communicated today, as well as a more assertive choice of colours from our range.

The T-shirts are still the preferred garment for most people. They have a flawless style and are always fashion. Furthermore, they are comfortable and practical. Also in the promotional market the t-shirt is, these days, the most used vehicle by brands to create visibility. About 76% of custom promotional textiles are t-shirts.

Increasingly, custom t-shirts are stylish and everyone wants to show his.

Your shirt is you!

POLO? MORE & MORE.

Since its invention in the 19th century, polo shirts have evolved exponentially in terms of use. In addition to its common use linked to sports, in the promotional market polo shirts are winning more supporters concerning uniforms and events which are characterized by sophistication. In 2018, TH Clothes' range of polo shirts was further extended, easily adapting to the new needs of the promotional markets linked to various sectors of activity such as banking, catering or hospitality. The introduction of a heavier weight polo shirt responds directly to the needs identified by the higher market segments. The Monaco polo shirt, with 240 g/m², is an effective response in terms of quality and design.

The corporate uniforms takes today an important role in modern business life. It is through it that many companies leave their first business card, showing the company's concern for the well-being of employees and creating a more professional environment. This way, your employees will feel-part of a team. This type of clothing also allows a limitation of individual styles in business and promotes saving time and money for employees, as it will not need to waste time and money with concern the adequacy of their own clothing business needs. Finally, corporate uniforms are increasingly taking to adapt to fashion trends, causing a sense of modernity and motivation in employees.

The Selection range of TH Clothes is essentially characterized by the concern to ensure that all companies can build a modern corporate visual, effective and lasting the best price.

In 2018, the introduction of the San Marino t-shirt, unique in the promotional market, is the presentation of an exquisite solution for customers looking to be at the forefront. Gifted with extremely high quality finishes, a modern cut and a stylish collar, it promises to revolutionize the most diverse markets.

CLOTHES

COMFORT
HEATING
COOLNESS
USABILITY
RESISTANCE

Sweatshirts have been a part of our daily lives for decades. They are the perfect piece of clothing for different environments and purposes. Their heating capacity, comfort and versatility are perfect features to make them an important part of many uniforms. On the other hand, these same features also make them desirable for less formal and more relaxed environments. For a very cool style, just wear it with jeans or shorts. Many designers often have new versions of sweatshirts in their autumn / winter collections, making them a must-have of the season.

The hooded version dates back to the style introduced in medieval Europe by the monks in their work abroad. In New York, workers wore them in lower temperature environments. The success of the hood was confirmed later in 1970 with the explosion of Hip-Hop and urban culture. Today, its success is reflected by the widespread use in many different environments and sports, from festivals to extreme sports.

In 2018, TH Clothes fulfils more needs of its customers and reinforces its range of sweatshirts with the introduction of another bicoloured article. Moscow has been inspired by the spirit of surfing and summer and features 7 gorgeous combo colours and a high quality sturdy construction

CERTIFICATION **RELIABILITY** QUALITY **VERSATILITY**

TH Clothes considers children articles highly important parts within its range of products.

The responsibility of owning children articles is unquestionably a commitment to quality. The OEKO-TEX certification attests to the quality of the chemicals used for dyeing the meshes of TH Clothes, so this way children can wear our products safely. Our kids' articles are the result of the application of international certification standards. Also, TH Clothes bet on color increase in its product range for children in order to fulfil the demands of specific markets.

In 2018, TH Clothes increases its range of children and introduces a new windbreaker to extend the offer to more markets, such as sports and school uniforms.

-VISIBILITY**

The workwear by TH Clothes represents the basic needs of this market. In line with other articles from this catalogue, the brand now assumes the possibility of holding a complete set of working uniforms directed to workshops, construction, among others. In 2017, the brand extends its offer and includes a polo shirt directed specifically to this segment, making the range even more comprehensive and responding with the appropriate quality required.

In 2018, TH Clothes aims to the needs of the markets again and introduces its first high-visibility article with CE marking, the Zagreb Work softshell, and also widened the colour range.
